Magnetic dartboard

Our magnetic dartboard is a toy which is very safe and full of fun.

Normal dartboard using very sharp dart. It is very dangerous and could hurt people if used in-properly. So it is not a good toy for children. However, our magnetic dartboard does not have such problem. Our magnetic dartboard use a strong magnet on dart to replace the sharp tip. The board is produced using offset or silk-screen printed color soft material. Vivid colours and shapes make the dartboard be more fun.

This special safe design and vivid board design can brings a lot of fun and safe to children.
